

## CHAPTER V

### CONCLUSION AND SUGGESTION

In this chapter, the researcher presents the conclusions and suggestions from this research. Conclusions and suggestions are formulated from research questions.

#### 5.1 Conclusion

##### 5.1.1 Types of deixis used in Kim Namjoon's speech

After studying the data, the researcher came to a final conclusion to explain deixis. Based on the analysis that has been done, the researcher found five types of deixis at Kim Namjoon's video. There were personal deixis, spatial deixis, temporal deixis, discourse deixis, and social deixis. The researcher found 196 deixis with 129 (65.8%) of personal deixis, 15 (7.7%) of spatial deixis, 10 (5.1%) of temporal deixis, 31 (15.8%) of discourse deixis, and 11 (5.6%) of social deixis.

Meanwhile, the type of deixis that was often used by the speaker was personal deixis, especially the deixis word 'I'. It because in the speech the speaker tells the story of the journey to become a famous person now. It is evident from the substance of the speaker's statements. The speaker reveals more about himself, from his infancy until the point where he needs to overcome uneasiness. The speaker used the word 'I' as a way to influence the listener so that the meaning of the speaker's speech can be conveyed properly.

##### 5.1.2 The meaning of deixis used in Kim Namjoon's speech

Based on analysis results, It can be conclude that each deixis has its own meaning and function. Learning about deixis can make readers or students make sentences and speeches easily. Personal deixis used to refers to anything that can be someone (human) or something (object). The speaker used spatial deixis to indicate specific places in the sentence according to the context of the utterance. Temporal deixis used to refers to condition between the speaker and the listeners. Discourse deixis used to describes deixis utterances which point to prior or

succeeding parts of the discourse. Social deixis refers to a person's position in society and is a social differentiator.

The researcher summarized that Kim Namjoon's speech at United Nations assembly by the title *Speak Yourself* was about encouraging young people to love themselves, find their inner voice, and dare to show themselves to the world. BTS was the first South Korean act to launch a global campaign called "Love Myself" in early November 2018. BTS have been partnering with UNICEF's #ENDviolence program to protect children and young people all over the world from violence.

## 5.2 Suggestion

Based on the results of this research, the researcher was considering some suggestions for English teachers, students, and future researchers. The researcher's suggestions were as follows:

### 1. For English Teachers

The teacher should broaden their field of knowledge about deixis especially in the field of pragmatics. It can be done by teaching students how to analyze text or utterances utilizing deixis contained in text or utterances. An understanding of deixis can help students in mastering speaking and writing skills.

### 2. For Student

Deixis is highly crucial to grasp in order to understand the intent of the utterances. It is proposed that pragmatics students broaden their grasp of deixis and kinds. Learning deixis such as personal deixis, temporal deixis, spatial deixis, discourse deixis, and social deixis can assist students in understanding what the speaker intends in the speech.

### 3. For Future Research

It is suggested that readers or researchers carry out more research on deixis. It can make surprising advances in the field of pragmatics and serve as a model for how to conduct research in several fields.
