ABSTRACT

Mufarida, Nurul. 2023. *The Effectiveness Using Pictionary Game Toward Students Vocabulary Mastery*. Thesis, English Language Education, Faculty of Teacher Training and Education, University of Nahdlatul Ulama Sunan Giri Bojonegoro. Moh. Zainuddin, M.Pd as advisor I and Khoirul Wafa, M.Pd as advisor II.

The purpose of this research is to know whether the use of Pictionary game is effective on students vocabulary mastery of class IV students at SDN Gajah 2 who found it difficult to master vocabulary and have a low score in vocabulary learning. The grand theory of the research is based on the Game as an Education Theory by Harmer and Lely. The technique used in this research is Pictionary game. In this research, the researcher used a one-group pretest-posttest experimental research design that was conducted in 4 meetings. In this research, the researcher used research instruments in the form of observation and test (pretest and posttest) to collect data with a count of participants is 14 students. Based on the findings of this research demonstrate that Pictionary game is effective on students vocabulary mastery, this is proven because the results of observation showed that the teacher has implemented the vocabulary learning process using the Pictionary game well and as long as students were given this treatment students showed positive responses and students' abilities progressed well in each meeting. Meanwhile the results of the test show that there is a difference in score between the pretest and posttest results. The results of this test, then are tested using the paired sample t-test and show that the alternative hypothesis (H_a) was accepted because the T-count $>$ T table which $2.810 > 2.160$ with significance effect 0.05 means that the Pictionary game is effective toward students vocabulary mastery of SDN Gajah 2 students.

Keywords : Pictionary game, students vocab, vocabulary, vocabulary mastery.

ABSTRAK

Mufarida, Nurul. 2023. *The Effectiveness Using Pictionary Game Toward Students Vocabulary Mastery*. Skripsi, Pendidikan Bahasa Inggris, Fakultas Keguruan dan Ilmu Pendidikan, Universitas Nahdlatul Ulama Sunan Giri Bojonegoro. Moh. Zainuddin, M.Pd sebagai pembimbing I dan Khoirul Wafa, M.Pd.. sebagai pembimbing II.

Tujuan dari penelitian ini adalah untuk mengetahui apakah penggunaan permainan Pictionary efektif terhadap penguasaan kosakata siswa kelas IV SDN Gajah 2 yang mengalami kesulitan menguasai kosakata dan mempunyai nilai yang rendah dalam pembelajaran kosakata. Grand teori penelitian ini didasarkan pada teori permainan sebagai edukasi karya Harmer dan Lely. Teknik yang digunakan dalam penelitian ini adalah permainan Pictionary. Dalam penelitian ini peneliti menggunakan desain penelitian eksperiment one grup pretest posttest yang dilakukan dalam 4 kali pertemuan. Dalam penelitian ini peneliti menggunakan instrument penelitian berupa observasi dan tes (pretest & posttest) untuk mengumpulkan data dengan jumlah 14 siswa. Berdasarkan temuan penelitian ini menunjukkan bahwa permainan Pictionary efektif terhadap penguasaan kosakata siswa, hal ini dibuktikan karena hasil observasi menunjukkan bahwa guru telah melaksanakan proses pembelajaran kosakata menggunakan permainan Pictionary dengan baik, dan selama siswa diberikan perlakuan tersebut siswa menunjukkan respon yang positif dan kemampuan siswa berkembang di setiap pertemuan. Sedangkan hasil tes menunjukkan terdapat perbedaan skor/nilai antara hasil pretes dengan hasil postes. Hasil pengujian tersebut kemudian diuji dengan menggunakan uji Paired sample t-test (uji beda t berpasangan) dan menunjukkan bahwa hipotesis alternatif (H_a) diterima karena nilai T-hitung $>$ T table yaitu $2,810 > 2.160$ dengan pengaruh signifikansi 0.05 yang berarti permainan Pictionary efektif terhadap penguasaan kosakata siswa SDN Gajah 2.

Kata Kunci : Permainan Pictionary, kosakata, penguasaan kosakata siswa.
